### DETAILED ACTION

1. Newly submitted claims 50-67 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the newly submitted claims 50-67 direct to an integrated remote biomedical monitoring network comprising a digital controller for monitoring a patient or pet or animal; the original claims 18, 22-32, 34-35, and 37-49 direct to an internet-coupled network for electronically linking at least fixed vendor and one mobile buyer using transaction.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 50-67 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on 12/14/2005 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims (newly submitted claims) are not readable on the elected invention because they are different invention from the elected (original) claims.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
